

6v6 MAKE IT TAKE IT WITH BACK BUMPERS

6v6 Set up as shown. With big goals and GKs.
 If team scores a goal they check back to teammates on end line and get another ball and continue playing. If shot misses then defending team gets a ball from teammates. Whenever ball goes out of play it is restarted from the end line. Player putting ball in play should look for penetrating pass first and if it is not on should play short. Player who puts ball in from end line joins game and one player comes off.
 Target player should hold ball up to bring teammates into game unless he can easily turn and go to goal.
